

Easy Coffee Filter Wreath

Supplies Needed

1 package of coffee filters (200 count)
1 Bottle of paint
1 Sponge paint brush
Hot glue gun
Heart shape cut out on a piece of cardboard

Step 1: Paint Coffee Filters

Begin by painting the ends of the coffee filters. Keep the filters together while painting them, it makes it easier to paint when they are still together. After you've painted them, then separate them so they can dry. It takes about 30 minutes to an hour for them to get good and dry.

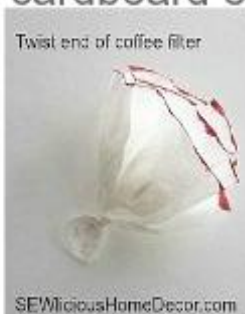

Step 2: Cut Out Heart Shape

Cut out a heart shape on a piece of cardboard or foam board.

Step 3: Twist Coffee Filter

Twist the end of the coffee filter.

Step 4: Glue Coffee Filter

Starting with the outside edges, glue twisted coffee filter onto edge of heart shape.

Continue all the way around heart shape working your way to the middle. Fluff up filters after they are all glued on so that they are not laying flat.

Glue a ribbon on the back for hanging.
